ABOUT US

Background and Experience

> *Please briefly present the organization/group (e.g., its type of scope, areas of activity, and, if applicable, the approximate number of paid/unpaid staff, learners, and members of the group)*

Artevio is a digital education and e-learning solutions specialist dedicated to transforming traditional learning into engaging, interactive, and accessible online experiences. Our expertise lies in developing educational platforms and integrating innovative learning technologies to enhance knowledge transfer and engagement.

With over 20 years of experience in web development and 15 years in online marketing, we have successfully merged technology with education, enabling educators, trainers, and learners to benefit from cutting-edge digital tools.

At the core of our approach is user-centered learning design. We develop platforms that are intuitive, accessible, and tailored to the specific needs of learners, educators, and organizations. We leverage AI-powered tools, gamification, and adaptive learning methodologies to personalize training experiences and increase engagement.

Our contribution to Erasmus+ and other EU-funded projects includes:

- Developing and maintaining Learning Management Systems (LMS) for formal and non-formal education.
- Designing virtual collaboration platforms for knowledge exchange and peer learning.
- Integrating AI-based training assistants and interactive learning tools to improve retention and interactivity.
- Creating digital storytelling and gamified learning experiences for diverse target groups.
- Providing data-driven insights through impact monitoring and user behavior analysis.
- Ensuring broad dissemination and outreach through digital marketing, social media engagement, and SEO optimization.

Artevio's holistic approach bridges education, technology, and innovation, making us a trusted partner in designing and delivering impactful digital learning methods and experiences. Our flexible, scalable, and inclusive training courses support lifelong learning, workforce upskilling, and international collaboration, reinforcing EU-funded initiatives' educational and social goals.

KEY ACTIVITIES

> *What are the organization's activities in the areas relevant to this project? Please explain how the organization brings an essential added value to the project.*

Our Key Activities and Contributions to Erasmus+ Projects

Development of E-learning and Training Solutions

We create intuitive and engaging digital learning experiences, supporting trainers and learners in effectively accessing, understanding, and applying educational content. Our learning environments are designed for interactive courses, self-paced learning, and blended learning approaches.

AI-Powered Learning & Digital Assistants

We integrate AI-driven learning paths, automated feedback systems, and intelligent content recommendations to ensure personalized and effective learning experiences. Our solutions include AI-assisted evaluation of open answers with teacher oversight and AI-powered course translation.

Interactive Learning Tools & Gamification

We design customized educational tools such as interactive simulations, quizzes, certification systems, and gamified training modules to increase motivation and knowledge retention.

Community & Networking Spaces

Our digital learning spaces connect trainers, learners, and stakeholders, fostering collaboration and knowledge exchange. We develop online forums, resource hubs, and social learning environments to enhance engagement and sustainability of project outcomes.

Data-Driven Decision Making & Impact Measurement

We incorporate analytics and reporting tools into our educational solutions to monitor learner progress, measure project impact, and support continuous improvement.

Hybrid and Inclusive Learning Solutions

We ensure that educational content is accessible across multiple devices, languages, and user needs, supporting inclusivity and diverse learning styles.

EXAMPLES

Examples of Our Work in Erasmus+ Projects

Live2Work 2016 – 2019 Awarded	Developed an e-learning system and digital training resources for professionals working with migrants and young adults facing employment challenges. **The project was awarded for its innovative pedagogical approach.**
Ubuntu United Nations 2021 – 2024 Erasmus+ Award	Designed the Ubuntu Digital Network, a **collaborative learning space** for youth leadership development, including training resources, interactive tools, and a social networking environment for participants worldwide. **The project received the Erasmus+ Award for Good Practices.**
Digitalized Emotional Questions for Youth 2024 – 2026	Developed the DEQ peer-mediation platform with interactive training modules, AI-assisted evaluation with teacher oversight and AI-powered translation into five languages.

ADDED VALUE

How We Add Value to Erasmus+ Projects

- Bridging the gap between traditional education and digital transformation
- Ensuring sustainability through long-term digital strategies
- Personalizing learning experiences with AI-driven solutions
- Connecting learners and educators through **collaborative educational environments**
- Supporting trainers and project coordinators with data-driven insights

With over 20 years of experience in web development, 15 years in online marketing, and 10 years of expertise in Erasmus+ projects and digital learning methodologies, we have a deep understanding of how to design and implement effective online education strategies. Our role in Erasmus+ projects is to enhance the quality, accessibility, and impact of education, making digital learning engaging, efficient, and scalable.
